Suzhou BODA Yongwang New Material Co., Ltd

Development Roadmap

- Founded in 2005 and headquartered in Wujiang District, Suzhou City, BODA is a listed company (873569) of the NEEQ mainly engaging in the design and manufacture of packaging materials and fully degradable products, which are widely used in the fields of optics, electronics, food, electrical appliances and food packaging. After years of development, it has formed a production base of electronic packaging and protection products which are fully matched with IT and optoelectronic products. We have branches in Jiangxi, Huizhou, Ningbo, Wuhan, Xiamen, Shenzhen and Hong Kong.
- In recent years, Boda has developed more than 80 intellectual property rights (including 4 inventions), registered 8 trademarks, formulated 3 enterprise standards, and passed the provincial specialized and special new small and medium-sized enterprise certification, and the national high-tech enterprise certification
- Boda has always been aiming at "world brand, evergreen foundation", and continuously improving the connotation of "Boda" independent brand through continuous innovation and development.
