CATHAY PACIFIC
CATERING SERVICES

To Whom It May Concern

Letter of Appreciation

I write to express our deepest appreciation for Palron New Materials Co Ltd ("Palron") for their professional support during the supply chain chaos that occurred during the peak of COVID-19 in Hong Kong.

Our company, Cathay Pacific Catering Services (H.K.) Limited, was one of the designated suppliers for quarantine camp catering, in support of the HKSAR Government's anti-pandemic program. As the COVID situation in Hong Kong rapidly intensified in March 2022, the need for catering supplies suddenly surged up to an unexpected extent. To make things worse, lockdown of major cities in China, including Shenzhen province and DongGuang province, caused unforeseen logistical blockage and delays. Catering utensils supplies from China to Hong Kong was in jeopardy. During a time that is as difficult as it can be, Palron was fully supportive to our company. Their team worked day and night to ensure speedy delivery of their products to us. Despite the huge challenge presented by the lockdowns and lack of labour for production (caused by lockdown and COVID cases) Palron exhausted every avenue they could to overcome all the obstacles. They successfully arranged on time delivery of their products to us. Without their support, our company would not have been able to complete our mission of providing seamless safe catering service to the quarantine camps.

Palron group has been our partner of choice over the past decades. The recent cases have definitely consolidated Palron's status as a strong leader of catering utensils market in Hong Kong. I would confidently recommend Palron to any company who is looking for the best reliable supply chain partner.

Best regards

KALEN TANG
